## When should I re-shop my Auto Insurance?

We recommend re-quoting auto insurance about once every three years, even if things appear stable.

You may have found the best auto insurance deal several years ago but over time your rates may become uncompetitive in relation to what is now available in the marketplace. Even if your insurance rate has been relatively stable over the years, behind the scenes rate changes, new discounts, and changes in your own life and circumstances may signal the need to re-quote your rates. We invite you to contact us for a re-quote...
